

QI Coordinator

Livingston Medical Group, a nonprofit organization, is seeking a dynamic QI Coordinator to provide leadership, plan, coordinate, and supervise all activities related to the design, development, and implementation of an organizational quality improvement program. The QIC will work closely with the clinic staff to develop and integrate quality improvement into all clinic functions. A BA/BS in Health Science or a similar field is required, an RN/LVN License is preferred but not required, must possess at least 5 years of health care experience with at least two of those years related to quality improvement. Please send resumes to mbaeza@livingstonmedical.org
